Your Water Cycle.*

Water Treatment Solutions for the Beverage Industry

We Optimize Your Water Cycle

BERKEFELD PurBev[®] Product Water

Customized treatment processes and standardized hygienic design technologies guarantee a perfect product water quality with maximized plant uptime.

AQUANTIS Waste-water Treatment

Innovative biological processes and membrane technologies treat even heavily polluted wastewater streams environmentally and climate-friendly.

Water Recycling & Reuse

Modular plant options and additions for process water reclamation minimize your water consumption, save precious water resources and reduce water costs.

ELGA Laboratory Water

Easy-to-use and flexible pure and ultrapure water systems ensure valid test results in analytics and quality control.

Process Water and Utility Water

Space-saving and cost-efficient treatment plants deliver the water qualities required for reliable production processes and a smooth site operation – from drinking water to rinse and wash water and water for cooling and boiler feed.

Hydrex Chemicals

A comprehensive portfolio of special water treatment chemicals optimizes your plant performance.

AQUAService

Technologies experts train your personnel and provide international support on-site, via telephone or remotely for a performance-optimized plant operation. Preventative maintenance maximizes uptime and retains the value of your water technology assets.

Expertise for added performance

Veolia Water Technologies Germany knows the demanding water cycles in beverage production from more than 400 projects in more than 40 countries. Our customers include internationally renowned brands, that need water as a precious product ingredient as well as a prerequisite for smooth production processes.

We design customized treatment solutions that help beverage companies optimize the use of their water resources. The competence of our engineers and technicians is based on more than 125 years of experience in developing and implementing water treatment technologies.

Our solutions guarantee:

- > Hygienically safe product water of a consistently high quality
- > Cost-efficient treated or recycled process and utility water
- > Eco-friendly treated wastewater
- > Maximized plant uptime
- > Optimized operating costs

We support our customers world-wide, throughout the lifecycle of their plants and as part of the Veolia Group if on-site assistance is required. Use our expertise to increase your performance.
